- 222mm x 110mm x 60mm

Unipavers are flooring materials. Unipavers are mainly used for outdoor purposes. Unipaver blocks are readily used in footpaths, walkways, pavements, driveways, factory sheds, etc. The colors of these blocks vary in different shades from yellows to grays. These Unipaver Blocks are extremely cost effective compared to other replacement options. They can differ in prices relying on the type chosen; nonetheless they can easily be installed in your desired locations. With the modernizing technology, wide array of materials are being developed every day. You can even customize the materials according to your preferences according to your purpose. Unipaver Blocks is one such innovation in the archite turalrealm.

### ADVANTAGES OF UNIPAVERS:

- Environment friendly
- Superior finish
- High strength
- Accurate dimensions
- Durable
